

MIDS Capstone Polling Places Team Charter

Purpose & Goal

We want to understand the relationship between polling places and college campuses, and communicate our findings effectively.

Time Commitment

We commit to spending 10 hours/week typically, and up to 15 hours/week if necessary.

Team Culture

In case of conflict - bring it to the group and be open, don't let it sit without discussing it.
Teamwork makes the dream work.
Be considerate!

Accountability

We intend to set small, digestible goals with each other.
We will use our bi-weekly meetings as deadlines to report progress and report issues/blockers.

Desired End Result

Our desired end result is creating a report for our client with our findings.
We also want to make a dashboard with interactive visualizations (GIS/map oriented)

Team Members & Roles

Team Members - Jasmine, Pranav, & Dapo
Defined as the project progresses, according to our strengths. We are all open to helping out and contributing wherever possible.

Supporting Resources

One of our mentors, Nick Eubank, has GIS course materials that we've been able to utilize. Our capstone directors are available for advice on teamwork, team dynamics, and project progress. We will also rely on the domain knowledge of our mentors and clients (having worked in the voting rights space before).

Reporting Plan & Meeting Expectations

Meeting with just us (group members): 1x/week, more if needed
Meeting with mentors: Bi-weekly
Meeting with client: Bi-weekly

Links

Our project will bring value to organizations that intend to increase civic engagement.
Our project may also be important for young people in certain voter blocks.

Formal Commitment

Jasmine Young : 08/27/21

Dapo Adegbile: 08/27/2021

Pranav Manjunath 8/27/2021
